

Documentation

My CI-5000 came with a whole envelope of assorted documentation, although unfortunately a lot is missing...

In the interest of preservation I've scanned everything I have, and here's where you can find that :)

I believe most of these are from October-December 1992
(the included floppies have a date code of Oct92, and my machine was manufactured in November 1992)

- Palette Driver Installation Guide

Enclosed are drivers and documentation for the Digital Palette that work with:

- 35mm Express, V. 4.1GS or higher
(Polaroid Digital Palette 1 - 7)
- Presentation Express, V. 1.0WS or higher
(Polaroid Digital Palette (WS) 1 - 6)
- Presentation Express, V. 1.0GS or higher
(Polaroid Digital Palette (GS) 1 - 4)

Be sure your 35mm Express or Presentation Express software is already loaded before loading this new software.

A walk-through of installing the Palette GS/WS drivers onto a DOS system

[PaletteDriverInstallGuide_Optimized.pdf](#)

- Polaroid Digital Palette GS/WS 'Making Output - Chapter 5'

Chapter 5: Making Output

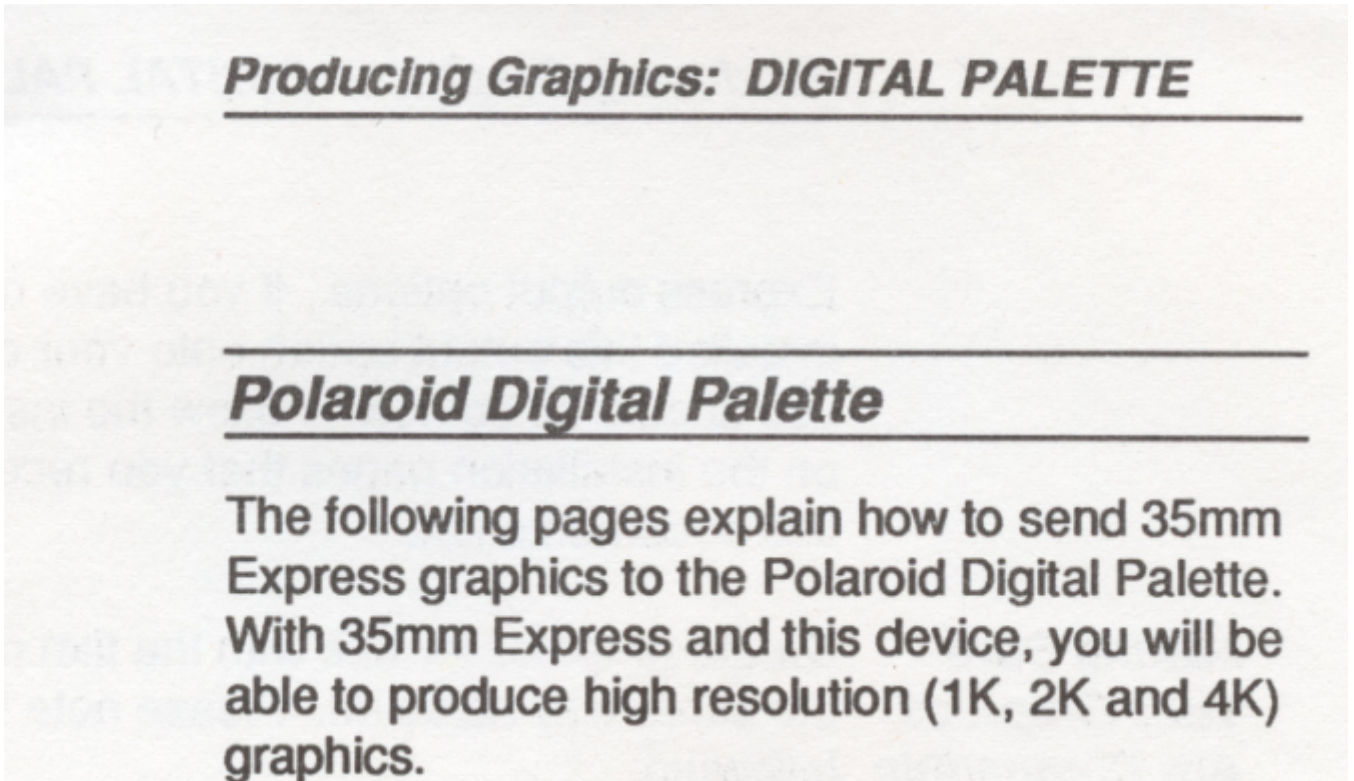

Polaroid Digital Palette (GS)

The following pages explain how to use the Digital Palette desktop film recorder to produce full color, high-resolution slides of your Presentation Express graphics.

This seems to be a basic guide on how to use the included *Digital Palette WS* and *Digital Palette GS* software for DOS/Win3.1.

[PaletteGS_WSProducingGraphics_Optimized.pdf](#)

- Polaroid Digital Palette 'Producing Graphics'

How to send graphics from the included 35mm Express software to a Digital Palette film recorder.

This one includes a handy reference to several error codes that the recorder may throw :)

[PaletteProducingGraphics_Optimized.pdf](#)

- Polaroid Digital Palette 4x5 System

4x5 system:

**To update your manual,
please add pages 2-11 to
2-13 at the end of
Chapter 2 (*Setting up*),
and replace the first page
of the Table of contents
with the enclosed page.**

An add-in pack for the Digital Palette manual, explaining how to use the 4x5 film accessories.

Also includes the contents page for that manual, however unfortunately none of the manual was included.

[DigitalPalette_4x5System_Optimized.pdf](#)

- Polaroid 4x5 Camera Adapter

4x5 Camera Adapter

Installing and loading the optional 4x5 system

This system comprises a 4x5 adapter and the Polaroid Model 545 4x5 Film Holder for exposing 4x5 sheet films. It can be used with the Polaroid FreezeFrame Plus Video Recorder and the QuickPrint VI-350 Video Printer.

Mostly a guide on how to use the Polaroid 545/545i 4x5 film holders, along with the 4x5 adapter for the Palette.

[4x5CamAdapter_Optimized.pdf](#)

that's these thingies :)

(you'll have to excuse the messy workbench!)
